CITY COUNCIL.

The regular weekly meeting of the City Council was held last evening. Present Mayor Rithet, and Councillors McKillican, Warner, Earle, Grant, Ward, Braden and Smith.

Minutes of former meeting read and adopted.

COMMUNICATIONS.

From W. K. Bull suggesting the propriety of Chinese wagons peddling in the city having numbers affixed to each vehicle.

Councillor Braden said that Mr. Bull required this to be done in order that he could identify the various peddlers when collecting the taxes.

Councillor Ward said that it would have to be done by amending the revenue by-law.

Referred to the tax collector to report at next meeting.

From McPhee & McGinnis asking permission to use part of Yates street, during the erection of a residence for Archbishop Seghers. Granted.

From William Rocket, applying for the use of a portion of Cook and View streets for building purposes. Granted.

From Allsop & Mason, agents, asking the street lines, to be defined on sections 3, 4, 5, 6, 8 and 10 on Beckley farm. Granted.

From E. B. Carmichael and others asking that the rock on Pandora avenue, north of the hospital, be removed. Referred to the Street Committee to report.

From Alfred Fox, reporting that on Saturday last the water was shut off from his brickyard, entailing loss and inconvenience, and stating that other brickyards were not similarly treated.

Councillor Smith said that Mr. Fox had received the water on the understanding that it would be taken at night and run into a tank which had not been done. Referred to the Water Committee with power to act.

SANITARY.

In connection with the clause in the sanitary report referring to the nuisance in front of Judge Gray's residence, on Moss street, a letter was read from Judge Gray, calling the attention of the sanitary committee to the disgraceful state of the drain, and stating that the nuisance was caused by the Bank of British Columbia building.

Councillor Braden said that men in cleaning out the gutters put the material on the sides and covered it over as well as they could. What Judge Gray speaks about is a very small matter, and the worst there came from his own premises.

The sanitary committee's report on the premises, stating that the only sewage in the drain in question came from the stable and kitchen, was on motion adopted.

BLASTING ON HUMBOLDT STREET.

Tenders for blasting rock on Humboldt street were read: John Darling & Co., north and south sides, $2.47 per cubic yard; Francis Argell and Thos. Burgoyne, north and south sides, $2.75; H. W. Cox, north side, $1.35; H. W. Cox, south side, $1.87½; James Baker, north and south sides, $2.35; John Berryman, south side, $2.40; John Berryman, north side, $2.60.

Moved by Messrs. Braden and Ward that the contract be let to H. W. Cox, the lowest tenderer, on his giving the usual security. Carried.

BLASTING ON YATES STREET.

Tenders for this work were read: John Berryman, $2.75 per cubic yard, south side; Charles Roe, $3 north side; Jas. Baker, $2.75 north.

Moved by Messrs. Earle and Smith that the contract be awarded to Jas. Baker.

BLANCHARD STREET.

Tenders for grubbing and grading continuation of Blanchard street: James Baker, $518; E. Wylde, $700; Jno. C. McLeod, $475; N. Leclaire, $375.

Moved by Messrs. Grant and Earle that the contract be awarded to N. Leclaire, the lowest tenderer, on the usual security being given. Carried.

SANITARY REPORT.

Sergt. Flesin, sanitary officer, reported a number of nuisances that required abatement. Ordered that the usual notices be served, and that the drain on Richardson street be referred to the Street Committee with power to act.

FIRE WARDENS' REPORT.

The Fire Wardens reported that a wooden building is in course of erection by Messrs. McKillican & Anderson within the fire limits, and recommending that steps be taken to have it discontinued.

Councillor McKillican said the Fire Wardens should take notice of other buildings erected in contravention to the law, and mentioned the buildings in rear of the Boomerang Hotel as an instance.

Councillor Ward said that the Council had no authority to sanction an illegal act.

Councillor McKillican explained that he had built the shed for a blacksmith's forge.

Report referred back to the Fire Wardens with power to act, and that they also report on the building at the Boomerang.

STREET COMMITTEE.

The report of the Street Committee was presented. It recommended that a box drain on Superior street be continued 300 feet eastward; that Cook street be graded from Belcher st. to Fairfield road and macadamised before the wet season; that the rock on Herald street would be crushed and removed as soon as the rock crusher was available; that Boyd street be graded, 40 feet wide, from Niagara street to Dallas road at a cost of $80.

FINANCIAL.

A by-law respecting the Municipal revenue of 1885, authorizing the Finance committee to arrange for the required overdraft, was read a second time.

MISCELLANEOUS.

Councillor Smith moved that the grading of Cook and Boyd streets be left in the hands of the Street committee to do it as they see fit. Carried.

Moved and seconded that a notice to remove thistles within the city limits be inserted in the newspapers, and that the Street committee be empowered to employ men to remove thistles on the streets. Carried.

Councillor Grant asked as to what the custom was in respect to persons building and taking up the sidewalks, and if it was their duty to replace them as they found them. His Worship answered that all parties were, by-law, required to put the sidewalks in their original condition.

Councillor Braden called attention to the condition of the drain on View street, running to Blanchard.

Councillor Earle said it was the intention of the Street Committee to take that matter in hand and have it repaired.

WATER FOR NEW GAOL.

Councillor Smith asked the Water Works Commissioner to read the letter he had sent to the Chief Commissioner of Lands and Works, on the question of supplying water to the new gaol.

Mr. Russell read the letter, which stated the terms on which water would be given.

After some discussion it was moved and seconded that the new gaol be given the water at the rate of $25 per month, and that the water be drawn into tanks at night. Carried.

Moved and seconded that the portion of the Water Commissioner's letter to the government refusing to guarantee a continuous supply, be withdrawn. Carried.

A NUISANCE.

Councillor Smith called attention to a nuisance on Pandora street, on the property occupied by Mr. Crosscen, and moved that the matter be referred to the Sanitary officer to report. Carried.

Next Wednesday being a public holiday, Council adjourned for two weeks.

FARMING IMPLEMENTS.

A Ramble Through the Victoria Implement Warehouses.

All the Prominent Makers Represented—Where to Buy.

BURNS & CO.

Last fall arrangements were completed whereby Messrs. John Nicholles and C. E. Renouf purchased the old established and favorably known hardware business of Messrs. Burns & Co., on the southeast corner of Yates and Broad streets, in this city. Sometime previous to this Mr. James Burns sold the lot to a party in England. All arrangements were at once concluded for the removal of the frame building and the erection on the lot of a fine brick block for the new firm. In the meantime

MESSRS. NICHOLLES & RENOUF

occupied premises in the new block being erected on Yates street, near Government, where they have carried on business since leaving the old stand. In a few days they will open out in their new premises, which are specially fitted up for their already large and increasing trade. The store on the corner of Yates and Broad streets is a fine airy one, with lofty ceilings. It has all the modern improvements in shelving, etc. In the stock, during a ramble of a TIMES' representative, we were pleased to observe the principal

CANADIAN MANUFACTURERS

represented in goods, while in spades, shovels, hoes, forks and such like goods were to be observed the makes of Messrs. Whitting & Cowan, of Oshawa, Ontario, and many other eminent manufacturers of Eastern Canada. In edge tools were the celebrated names of James Warnock & Co., of Galt, Ont., to be found; while Shierley & Dietrich, of the same place, were the manufacturers of the cross cut and circular saws which the firm had for sale. These were the most prominent makers' names and brands, but Montreal, Toronto and Hamilton firms' names were likewise observable.

IN THE AGRICULTURAL IMPLEMENT WAREHOUSE

were a large assortment of agricultural implements, such as self binders, mowing machines, single reapers, self dumping horse rakes, seed drills and cultivators, ploughs, harrows, separators, turnip cutters, hay forks and wheelbarrows. Messrs Harris & Son the celebrated implement makers of Brantford, Ont., supply Messrs. Nicholles & Renouf with a full line of their specialties. The world-wide fame of the Brantford firm is a sufficient guarantee as to the excellence of their makes. Messrs. Wisner and Son of the same city supply them their celebrated separators and self dumping horse rakes. In ploughs we found the makes of the Cockshutt Plough Co., those of Copp Bros., of Hamilton, and John Fleury, of Aurora. The Waterous Engine Co., of the same place, are supplying them with a couple of portable engines and grist mills and turnip cutters. The patent hay fork is from a London, Ont., firm, Workman & Ward, and a most excellent article it is. Messrs. Nicholles & Renouf have secured the whole agency in this province for the

CELEBRATED SNOWBALL WAGGON CO.,

of St. George, Ont., a firm that has been in business for over fifty years—being the oldest manufacturing concern in Ontario. The wagons of this firm can be relied on as they are made of the very best of second growth hickory and white oak, thoroughly seasoned and expressly built for this market. It is nothing strange to find wagons made by this firm a quarter of a century ago, superior in several respects to many that have not seen a tenth parth of the service of the "Snowball."

As the firm of Nicholles & Renouf are determined to keep in stock only the very best, most approved and modern agricultural machinery, implements, etc., such as they are now representing in the firms named they are certain to receive a considerable share of public favors to which they are justly entitled.

MARVIN & TILTON.

Walking along Wharf street a TIMES' representative's attention has frequently been attracted to the large output of goods shipped by Messrs. Marvin & Tilton, who for many years have been amongst our foremost dealers in hardware, metals and agricultural implements.

THEIR MAIN STORES, TWO IN NUMBER,

on the corner of Wharf and Bastion streets, is devoted entirely to hardware and metals of which they carry a most varied stock. Any elaborate description of the extensive stock carried by this enterprising firm would be too lengthy for our columns.

THE AGRICULTURAL DEPARTMENT OF THE ESTABLISHMENT.

Crossing the street to the two large warehouses devoted to storage of agricultural implements and machinery, the visitor is greeted with a medley of all those various modern inventions which now make farming so much less arduous than in the early days of our fathers. We were shown various classes of mowers, including the Woods, Champion, Buckeye, Victor and Toronto. Out of so many styles to choose from the most fastidious granger would surely find a machine to suit his preferences. The "Toronto," a mower just brought out on the market, is made by the Massey manufacturing company, of Toronto, who have appointed Messrs. Marvin & Tilton their

EXCLUSIVE AGENTS FOR BRITISH COLUMBIA.

The initial shipment of these mowers only recently arrived, but they sprang immediately into popular favor on account of their strength, lightness, cheapness and perfect mechanism. Within ten days after their receipt over half the machines were disposed of, although the invoice was quite a large one. Another car load, however, is daily expected. This mower is pronounced to be the one that will be chosen by the farmers to cut the future hay crops of the province. Here are to be found plows of many patterns, including the celebrated Moline and Mohawk; churns of all sizes and shapes; harrows with teeth, harrows with springs, and harrows with discs; horse rakes, amongst which are the well known Tiger, Hollingsworth, Coates and Sharp's. All these implements appeared to be

MOST EXCELLENT ONES,

both as regards design and workmanship. A Woods Twine Binder—a machine which is claimed to be far in advance of all others used on the great farms in the States—also attracted attention, by its perfect and ingenious mechanism.

Many other implements were in stock that deserve special mention, as each has some point of merit that should recommend the article to our agricultural friends, who should not fail to visit this establishment when in the city.

MR. E. G. PRIOR.

This gentleman some time since bought entire control of the business carried on for some years by Messrs. Fellows & Prior. The establishment is an old and favorably known one. It is located on Government street. The store is a large one and in it is to be found every article kept in a first-class hardware establishment and the manufactures of the best makers in the world. In shelf and heavy hardware their stock is complete in every line. Being an old established house and having grown up with the country, its wants in the hardware line are perfectly familiar to him.

AGRICULTURAL IMPLEMENTS.

The Johnson street warehouse is crowded to the door with agricultural implements of both Canadian and American manufacture. Amongst the many firms represented here by Mr. Prior, that gentlemen has the sole agency in this province for the John Deere self-binder. This machine is made in Moline, near Chicago, and is a great favorite with the Americans. Thousands of these are now in use and their popularity is daily increasing. Alongside of the Deere machine is the famous Watson machine, manufactured by John Watson of Ayr, Ont., who has so successfully competed in foreign markets with the Americans, that on more than one occasion he has carried away from them coveted prizes and medals. Horse rakes of the Watson's make are likewise to be found here. The renowned Buckeye mower, made by Frost & Wood of Smith's Falls, Ont., has many admirers throughout the world. In this province it is likewise a favorite. The D. M. Osborn & Co., manufacturing company are represented by their world-renowned binder, which still keeps abreast the of times in all improvements. Noxon Bro.'s of Ingersoll, Ont., have their seed drill for sale through Mr. Prior. No farmer should be without one of these. While in patent hay loaders Messrs. J. Russell & Co. are to the fore with their unrivalled article.

IN PLOUGHS AND WAGONS

Mr. Prior has the control of the wagons made by the Chatham, Ontario, Wagon Company, who, during the past year or two have turned out these by the thousand for all parts of the Dominion. In buggy and carriage wood work the St. Catharines and Welland Vale, Ontario, factories are largely represented in wheels, hubs, spokes, etc., made of the very best seasoned second growth hickory. The great noted American plows made in Ayr, Ont., and those of the Smith's Falls manufacturing Co., are likewise in stock. In spades, shovels, forks, &c., the establishment of Messrs. D. F. Jones & Co., Gananoque, Ont., are well represented. In garden tools Mr. Prior's stock is replete. Here is to be found every implement known to farming or gardening. Nothing appears to be wanting. Our readers will find in Mr. Prior's stock just as choice a selection as can be found in any of the large coast or eastern cities. His prices are right for the times and everything guaranteed to be as represented.

A Model Mechanic.

One of our Wharf street wholesale merchants engaged a Chinese carpenter to build a hen house. The work was neither extensive nor intricate, but it was rather much for the muddled mechanical mind of the Mongolian. When a Chinaman don't know anything about the job he has on hand, he selects a model and copies it as closely as possible. In this particular case John was all befogged when he came to the roof. Looking at a small building near by he saw that the first row of shingles was double, and the intelligent celestial carpenter covered the whole building with double rows of shingles. He was also probably a cross-eyed son of the sun, for starting at the bottom, by allowing six inches to the weather, he finished at the top with fourteen. Three full days were occupied in doing what a white man would have accomplished in a workmanlike manner, in one-half the time. Whatever excuse there may be for the employment of John as scullions and scavengers, there is not a shadow of reason why white carpenters of which the city is full, should be refused employment of this kind, and the bungling and incompetent Chinamen be given an opportunity to outrage every principle of the mechanical art.

POLICE COURT.

(Before Edwin Johnson, Esq., S. M.)

Lum Yip, on remand, threatening to shoot Ah Quon. The examination of Ah Quon was continued. Lum Yip had demanded the payment of $100, and produced a knife and pistol and said he would kill him if he did not pay the money; he denied owing Lum Yip any money or being connected with the gambling house near the restaurant where he works. A number of witnesses were examined. The row is presumably the outcome of a gambling dispute. The prisoner was committed to stand his trial; bail being fixed at $500, and an adjournment was taken till 5 o'clock to permit its production.

Good Time.

The train left Van Horne on Kamloops Lake, yesterday morning at 5 o'clock and reached Port Hammond in the evening at 7:30, making three stoppages on the way of one hour each, besides several shorter calls.

Accident.

On Sunday last, while Mr. G. R. Wright and another gentleman were driving in a buggy along Eagle Pass road they were upset and Mr. Wright unfortunately got very seriously injured. A steamboat was at once dispatched to Kamloops for a doctor. Further particulars have not reached us.

THE WIDE WORLD.

THIS DAY'S DESPATCHES.

March of the Cholera King.

Special to THE TIMES.

MADRID, June 25.—Official reports of the new cases of cholera and deaths from the same in Spain, on Wednesday, are as follows: In Madrid there was a total of 9 new cases and 8 deaths; City of Valencia, 63 new cases and 25 deaths. During the same time there were in the rest of the province of Valencia, 349 new cases and 314 deaths; City of Murcia, 106 new cases and 34 deaths, while in the remaining parts of the province of Murcia there were 208 new cases and 87 deaths. In the province of Castellon dela Plana there were 59 new cases and 30 deaths; in Cien Pazuios, 6 new cases and 4 deaths; in the City of Toledo, 5 new cases and 2 deaths, and in the remainder of the province of Toledo there were 15 new cases and 8 deaths. Twelve cases and one death have occurred in the military academy at Toledo.

Reports of a Prisoner of El Mahdi.

Special to THE TIMES.

LONDON, June 25.—Rev. Luigi Bonomi, Italian missionary priest, and for a long time a captive in the camp of El Mahdi, made his escape and arrived at Dongola. Father Bonomi reports that all the priests made prisoners during the rising of Soudan and march of El Mahdi, are in good health. The magnitude of the revolt in Korkofan has been very much overrated, says Father Bonomi, but he confirmed the truth of reports that the forces of El Mahdi have been repeatedly defeated by General Sennar. Father Bonomi states, however, that famine and disease are raging and making a waste of Kordofan.

The "Times" on the Correspondence.

Special to THE TIMES.

LONDON, June 25.—The Times, in an editorial referring to the correspondence between Gladstone and the Marquis of Salisbury, says it wonders why so much solemn diplomacy should be necessary to accomplish the end in view. It says Salisbury is doing what he began by protesting he would never think of doing. The Times commends Salisbury, however, for finally acting on the grounds of practical wisdom.

Stricken with Remorse.

Special to THE TIMES.

NEW YORK, June 25.—Carpenter, who was on second trial for the murder of his wife by stabbing her to death, and which trial has been in prog ess for the past two days in Court Oyer and Terminer, cut his throat in his cell in the tombs this morning. The wounds are considered very dangerous and the trial was postponed till Monday next.

Egyptian Notes.

Special to THE TIMES.

CAIRO, June 25.—Another letter has been received from Tahadi, in which he says he will shortly arrive at Wady Halfa.

El Mahdi has issued twelve commandments. One enjoins the killing of all foreigners, unless they become Mussulmen.

The garrison at Kassala continues to receive supplies by raiding.

Increasing the Police Force.

Special to THE TIMES.

OTTAWA, June 25.—In the House of Commons yesterday the bill providing for increasing the number of the Northwest Mounted Police to one thousand was read a third time and passed.

The City of Tokio Ashore.

Special to THE TIMES.

YOKOHAMA, June 25.—Bulletin—The American steamer City of Tokio, Capt. Maury, from San Francisco June 2nd, is ashore near this port. She is leaking, and her cargo has been partly jettisoned. Assistance has been sent to her.

Harvard Wins.

Special to THE TIMES.

NEW LONDON, (Conn.), June 25.—The Harvard-Columbia boat race was won by Harvard.

Higher Honors.

Special to THE TIMES.

LONDON, June 25.—Sir Nathaniel Rothschild, Sir Evelyn Baring and Mr. John Morley will be raised to the peerage.

The School Concert.

The concert given by the pupils of the city schools in Philharmonic Hall last evening was very largely attended. The programme was sustained almost entirely by the young boys and girls, and the various recitations and songs were rapturously received by the juveniles. It was as follows: Part First.—1. "Song of Peace," pupils of Miss Williams' class; 2. vocal solo, Miss A. Munsie; well rendered. 3. recitation, Master Short; applauded rapturously. 4. piano solo, Miss Becker; 5. trio, the Misses Hicks and Stannard, sopranos, the Misses Humber, and Horton, alto, Master Haynes and Mr. Offerhans, basso; this trio was well rendered. 6. recitation, Miss Lee; wonderfully well delivered. 7. piano duet, the Misses Christie; 8. dialogue, "Quarrel of the Flowers," little girls in costume, who were trained by Mrs Reid and Miss Cameron; one of the gems of the evening. 9. instrumental quartette, two violins, one viola, and one violincello, two Master Chambers, Mr. Chambers, and Prof. Lintott; the audience insisted on an encore of this piece. 10. Chorus, High school pupils of the first part.

Part second—1. opening chorus, "The Echo." Pupils of girls' department. 2. the Court Scene of the Merchant of Venice, boys' department, in costume, under the careful training of Mrs. Caldwell and Mr. Thain. This was well presented and much appreciated. 3.—Piano solo, Miss Hicks; showing exquisite touch. 4.—Recitation, Miss Annie Robertson; well rendered. 5.—Scotch song, Miss Anna Bella Russell, called forth rapturous applause. 6.—Violin solo, Mr. Gore. This was the gem of the evening. 7.—Recitation, Miss Edith Richardson; good. 8.—Piano solo, Miss Nellie Broderick, whose rendition showed her to be master of the instrument. 9.—Vocal solo, Miss Esther Johnson. Sweetly sung. 10.—Piano solo, Miss Hutcheson. Shows that not only is she an able accompanyist but also a talented solo player. 11.—Closing chorus, "Where the warbling waters flow." The concert was a great success, and a large sum of money will be realized for prizes. The teachers are entitled to credit for the result of their efforts. The piano used was kindly lent by Mrs. R. Brodrick.

Address, THE TIMES P. & P. CO.,
Victoria, B. C.

J. C. McLAGAN, Manager.

It is reported from Brussels that the malady which for years has oppressed the brain of the EMPRESS CARLOTTA, widow of MAXMILLIAN, of Mexico, is gradually disappearing.

THE PRINCESS BEATRICE is to be married with a great deal of pomp and ceremony. The wedding cake will weigh two hundred and fifty pounds, and will repose on a pedestal of gold.

THE Hudsons Bay Company have sent in their first batch of accounts and vouchers in connection with the Northwest rebellion, and the officials of the department are having a lively time in going through them.

THE present estimate of the total cost of the Northwest campaign to Canada is close on six million dollars. The present disposition of many intelligent people is to blame SIR DAVID L. MACPHERSON for the fighting. Six millions is a large sum to pay for SIR DAVID'S services, and the bungling of his henchman, LIEUT.-GOV. DEWDNEY.

THE Russian Bear has taken alarm at the change in political affairs in England. His organ has sounded a warning growl. There is no doubt that the change of ministries is not at all to the liking of the Czar, in whose recollection the recent ferocious and belligerent utterances of the Conservatives are fresh, and he views their accession to power as a menace to peace. We are likely to hear more of this Afghan business yet.

THE ex-EMPRESS EUGENIE has stopped the annual pension of 24,000 francs which had been settled on Prince VICTOR NAPOLEON because the young man has been leading a riotous and vicious life. The ex-Empress and PRINCESS CLOTHILDE and MATHILDE are, it is reported, engaged in a conspiracy to supplant VICTOR as a pretender, to the Bonapartist succession by his brother, PRINCE LOUIS. The latter refuses to be a party to the conspiracy.

THERE is a little dispute among the Canadian newspapers as to the propriety of giving the militia who served in the Northwest a medal each as a reward for their valor. Some of the journals think that as it was a civil war no tokens should be given to perpetuate its memory. At first sight that seems to be a very lofty position to take; but unfortunately it cannot be a popular one. When the "boys come marching home" they would like something besides the shout of welcome and congratulations, if it is only a piece of leather or tin with their country's stamp of approbation upon it. Shouts die away and welcome potations evaporate, but a medal or some token has been for many ages considered the proper thing for a battle-scarred soldier to have. The Canadian warriors should have their Batoche and other medals.

THE condition of the volunteers in the Northwest is reported to be a most pitiable one. They are all anxiously awaiting orders to return home. In their present mood should they encounter BIG BEAR and his band, short work would no doubt be made of the Indians. The men present a most pitiable condition. Their clothing, owing to the rough usage experienced in marching through the dense brush, wading through muskegs and other discomforts of campaign life, is in tatters, many of the men being literally bundles of rags. They are in an even worse plight, if possible, as regards foot gear. Their boots are all worn out, while socks and stockings are a luxury enjoyed by but few of the men, such articles in most cases, having been used up long ago. The only changes in clothing the men have had since leaving home was that lent by the settlers at Battleford, but this has all been used up long since. What the condition of the men will be if the campaign continues much longer, it is hard to conceive, but it is hoped by all the men that new clothing will by some means be forwarded to them before they are again compelled to appear once more in the haunts of civilization.

THE RAILWAY IN THE NORTHWEST.

There was a lively discussion in the Commons on the resolutions granting land subsidies to the railway companies in the Northwest. Four lines are aided, the Northwest Coal and Navigation company, running from Medicine Hat to the Galt mines on the Belly river, a distance of 110 miles, and which will be ultimately extended to Fort McLeod, gets 3650 acres a mile, the road being a narrow guage. Arrangements have been made for the early completion of this enterprise. The Manitoba Southwestern railway, fifty-one miles of which is in operation, is projected for a distance of 378 miles, but the land grant of 6400 acres a mile covers only a distance of 150 miles, from Pembina to Whitewater Lake, which it is expected will be well advanced to completion this year. The Manitoba Northwestern railway, whose charter covers 453 miles, obtains 6400 acres a mile. It is already in operation from Portage la Prairie to Minnedosa, a distance of seventy-eight miles, and an additional fifty miles will be built this season. Lastly, the Qu'Appelle, Long Lake & Saskatchewan railway, running from Regina to Long Lake, a distance of eighty miles, through a magnificent country, gets 6400 acres a mile, and has the capital to at once proceed with the work. The land grants are given free, with the exception that the companies pay ten cents an acre for surveys. The opposition attacked the government's railway policy generally, and alleged that *bona fide* settlers had been shut out by such large tracts of land having been locked up by corporations.

THE MONGOLIAN IN THE EAST.

Referring to the Anti-Chinese meeting held in this city a few weeks since, the Toronto *World* says: "It is demanded by the west that the "Chinese must go;" it would be asserted too, at once, if the experiences of San Francisco were transferred to Toronto. Then there would be a fluttering amongst the dovecotes, perhaps. Not the two dozen of Wing Wang and Che Chang who so much excite present young lady enthusiasm in Toronto, but, something else altogether."

The *World* then quotes THE TIMES' remarks on the meeting and adds: "Now, then, why do not the Chinese go? We take leave to answer—because they are supported by clerical leaders in the Methodist, Presbyterian, Baptist, and Congregational churches in Ontario. But for that clerical support, the thing would collapse utterly. This clerical support of Chinese immigration is based upon humbug and ought to be exposed. The time has come for it to burst. We venture the opinion that but for the powerful opposition of Methodist and Presbyterian church councils, SIR JOHN would soon settle the Chinese question the right way. But he dare not because they forbid. They are all powerful in this matter and he dare not move a step against them. However, election times may come, and then it may be seen whether house rights are to be disregarded."

THERE has been a renewal of agrarian outrages in Ireland. A farmer was killed Sunday at Millstreet, County Cork, his skull being battered in, and a farm laborer near Tipperary was shot, but not fatally injured.

A Safeguard.

The fatal rapidity with which Slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should impel every prudent person to keep at hand, as a household remedy, a bottle of AYER'S CHERRY PECTORAL.

Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:—

"Medical science has produced no other anodyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says:—

"I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of so great value as AYER'S CHERRY PECTORAL, for treatment of diseases of the throat and lungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S

Cherry Pectoral

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public.

There is not a household in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well by it.

AYER'S CHERRY PECTORAL has, in numberless instances, cured obstinate cases of chronic **Bronchitis, Laryngitis,** and even acute **Pneumonia,** and has saved many patients in the earlier stages of **Pulmonary Consumption.** It is a medicine that only requires to be taken in small doses, is pleasant to the taste, and is needed in every house where there are children, as there is nothing so good as AYER'S CHERRY PECTORAL for treatment of **Croup** and **Whooping Cough.**

These are all plain facts, which can be verified by anybody, and should be remembered by everybody.

BRILLIANTS.

Our sins, like to our shadows
When our day is in its glory, scarce appeared;
Towards our evening how great and monstrous
They are! —[Sir J. Suckling.

Through the harsh noises of our day
A low, sweet prelude finds its way;
Through clouds of doubt, and creeds of fear,
A light is breaking, calm and clear.
—[Whittier.

There's a monster delusion that lives in the mind,
And it rests on the basis of gold.
That a lofty ambition of pomp, and of kind,
All the joys of the world can enfold.
To be true to the righteous, that lives in the deed;
To be true is to practice the Christ-crowning creed.

A Good Duck Story.

[Philadelphia Telegraph.]

A few days ago John Hunter, a brakeman on the Pine Island railroad, New York, went out on the Wallkill river in a dug-out canoe, to try his new $100 breech-loading shot-gun on ducks. He saw a duck and blazed away. The new gun kicked like a mule and upset the boat. Hunter disappeared beneath the water, but came up again within reach of the boat and seized hold of it. The gun disappeared and stayed there. The water was eight feet deep. Hunter floated about on the capsized dug-out for an hour, and hallooed for help until he got hoarse. Then a man came along, got another boat and rowed out and brought Mr. Hunter in.

The next day Hunter went out in his dugout with a garden rake to fish for his new gun. After dragging the bottom for nearly half a day he got a hold of the gun. When he fired his gun off the day before both barrels were cocked, but only one went off. The hold Mr. Hunter got on the gun with the rake must have been on the trigger of the cocked barrel, for when the gun had been raised nearly to the surface, coming up butt first, there came a sullen rumble down below, and the next second the gun shot up out of the water like a skyrocket. It flashed by Mr. Hunter's face so close that it knocked his hat off. Mr. Hunter jerked back, and over went the boat.

As on the day before, Hunter went under and came up close by the upturned boat and seized it again. The gun repeated its programme of disappearing and staying there, only this time it was accompanied by the rake. Mr. Hunter was compelled to exercise his lungs once more until he was towed ashored by a neighbor. Next day he hired a man to go out and fish for the gun and rake. The man got them both in fifteen minutes. Hunter says he don't know whether to sell his gun or get another kind of boat, or whether he had better lock them both up and lose the key. The duck escaped.

The Barber's Side of It.

[Ft. Worth Dispatch.]

"You hear a great deal of talk about being too talkative," said a Pittsburg barber, "but let me tell you that the barber who doesn't talk isn't any good. He isn't popular with the trade and he doesn't make a good workman. You see, a man comes in and get into the chair, and the barber commences shaving him without saying a word. The man who is being shaved has nothing to think about except himself, and he immediately begins to kick about the razor. It pulls and hurts his face, and nothing suits him, and he goes away dissatisfied with the shop and the barber. Now, one of those good-natured, talkative barber would take that same man and commence talking politics and the weather, the police and the skating rink to him, and there would never be the sightest kick."

Diplomatic Argument.

[Cleveland Plaindealer.]

Speaking of two legislative bodies as against one, there is no better illustration than the story that is told by the great French publicist, Laboulaye, of Washington and Jefferson. Jefferson was taking tea with the father of his country, and, having recently returned from France, was talking of the French system, which has but one legislative chamber. Washington listened with interest to the end, and then said:

"You have just shown the superior advantage of the two-chamber system of legislation."

"How is that?" asked Jefferson.

"Why, you have poured your tea out of your cup in to your saucer to cool."

It is said that the argument was considered a powerful one with Jefferson.

Important to Ship Owners.

[Chicago Herald.]

The hydrographic office at Washington has undertaken to collect information as to the utility of using oil to smooth the surface of the sea in bad weather. From data collected it appears that paint oil and kerosene oil have given better results than sperm oil. The latter seems to harden on the water and does not spread over the surface to such an extent as the former. The effect upon the sea is to forces immediately decrease the "combing" of the waves, and ultimately to cause the curling waves to assume the nature of a heavy ground swell. The importance of the subject to ship owners the captains of vessels cannot be overestimated.

The Aristocracy of the Soil.

[Carolina (S. C.) Spartan.]

The young man who knows how to lay off corn and cotton rows, and to regulate the distance of the same so as to get the largest crops, is worth a cow-pen full of nice, kid gloved, fancy overcoated fellows who may know how to lead the german or caper around at a fashionable waltz. Siding cotton, setting a plow just right, and adjusting gears so that shoulders and backs of horses will never hurt, are worth a thousand fold more to the country than knowing how to pose in a parlor or how to adjust the shade of the cravat to the complexion of the wearer.

The Artist Vindicated.

[Inter Ocean.]

Harper's Weekly has been sharply criticised about the size of a load of logs pictured in a scene in a Wisconsin logging camp. In answer to this criticism a Michigan artist sends a photograph of a Michigan load taken in a lumbering camp. This load consisted of twenty logs, each sixteen feet long, and scaled 14,593 board measure, and, says the artist, "It was drawn four miles by two horses." The best lumbering camps have their main roads as smooth as a floor, and when the sleding is good enormous loads are drawn.

Economy Is Wealth.

[New York Sun.]

A farmer and his wife went into a dentist's.

"How much do you charge for fillin' teeth?" asked the farmer.

"From $2 to $5."

"An' how much for pullin'?"

"Fifty cents."

"Marier," he said, turning to his wife, "you'd better get it pulled."

A CASE OF "CONJURING."

Uncle Ike Breaks the Magic Spell of "er Pis'nus Ole Black 'Oman."

[Arkansaw Traveler.]

"Uncle Ike," asked young Mulkittle, "what made you sprinkle ashes on the door step last night?"

"I sprinkle ashes you saw me sprinklin' wuz de ashes o' er ay bird."

"A ay bird?"

"Dat's what I said. Er pis'nus ole black 'oman what doan lib fur from heah, hab been conjurin me. She wanted me ter marry her, some time ergo. I tole her dat I wasn't a marryin' man. Uh huh, laws er mussy, what er howl she did up. Last night, bout 1: er clock, er awful pain struck me in de heel. I got up an' rubbed some liniment on it an' I hopes'er die ef I didn' think I wuz gwine ter burn up. De liniment gunter smoke an' den it gunter blaze. Wall, I got de fire out arter er while, an' went back ter bed. Den er ole houn' gunter howl at the corndor o' de house. I opened my mouf ter yell at de dog and blame ef I cou'd shet it ergin.

"Yer better blebe dat by dis time I wuz putty badly skeered. I clapped my han's on my head an' tried fer shet my mouf, but 'twarnt no use in tryin'. I poked out my tongue, an' sakes er live, I couldn' git it in no mo'. I went out in de yard an' looked all er roun'. Couldn' see nuthin'. Bimebi I seed dat old dog ridin' erroun' on a barl hoop. He come er ridin' at me an' I tried ter git outen his way, but 'twant no use, fur de first thin' I knowed he had dun runned ober me. My mouf shet down on de barl hoop an' I couldn't git it out. De dog he run on er way an' dar I wuz holdin' de hoop in my teeth. I went inter de house an' got er hatchet an' tried ter chop de hoop, but I couldn' hit nuthin' but myse'f. I sot down, den an' gunter think. I dunno whut would er come o' me ef I hadn't thought o' dis leah song, whut my gran'muder learned ter me:

Oo, de punkin mug-sy yaller in de corndar o' de fence,
Hoo dar, hoo dar;
Oo, de ole Guinea nigger ain' got ha't sense;
Hoo dar, hi, hoo bew.
Oh, de black mule pull wid de switch o' his tail,
Hoo dar, hoo dar;
Oh, de ole bay steer creeps er long like er snail,
Hoo dar, hi, hoo, bew.

"I hadn't mor'n hummed dat song till my mouf flew open an' de hoop rolled out. It knocked at de do' an' I let it out. De naixt mawnin', my 'spicions habin been korter 'roused by dis time, I turned ober de do' step and un'er it I found er bunch er black sheep's wool, er rat tail, er snake's head, er pinch bug an some bird claws, all tied up in de toe o' er sock. Oh it wux all mighty cl'ar den. I knowed den I'd at de old 'oman had cunjured me.

"How ter keep down dat sorter bus'ness wuz de naixt move. An' in dis I wa'nt berbine, fur I wuz raised in er ciberlized country, myse'f. I killed er jay bird, burnt him an' sprinkled his ashes on de step. Las' night de ole 'oman come ergin in de shape o' er houn' but when she sniffed dem ashes up her nose, she howled like she had been shot. I went out an' mighty nigh killed myse'f laughin at her. She tried ter ax my pardon, but I wouldn' lis'en ter no sich foolishness. I'll hab ter put dem ashes on dar ebery day fur er week. Now run erlong, honey, an' git dat beer 'fore it sp'iles."

Gordon's Beauties.

[Pall Mall Gazette.]

One cold day in January a poor sailor was standing coatless outside a lodging-house near the pier at Gravesend. He had not only spent all his money, but had parted with his coat. Gordon saw him, shriveled with the wind, and found on inquiry that he was waiting for a ship to go to sea again. What arrangement he made with the man no one knows, but an eye-witness saw Gord n take off his own coat, place it on the sailor, and walk back to the fort house in his shirt-sleeves. At other time, when the winter coals were being delivered at the fort house, Gordon noticed that one of the men was very ill-clad. His boots were ragged and his trousers thin and tattered. The man was wet and grimy, and altogether an evil case. Gordon rigged him out, and his kindness was not misplaced, for when the next coal delivery took place Gordon noticed that the boots and the trousers were both being worn, and made the remark: "I am pleased to see that you are wearing the clothes I gave you and have not sold them."

Some people seem to think that the fact of Gordon's bounties occasionally benefiting the ungrateful and the unfit is a reflection on his acuteness and his common sense. So far from this assumption being justified, it appears that Gordon deliberately incurred the danger of being deceived for the chance of a thrust at real distress. Once when walking through the hospital wards one hot summer's day, Gordon noticed a sick man tortured by flies lighting on his face. Saying nothing, he went out and bought a fan, which he gave to the nurse for the sick man, "that he may get a little rest." That sick man still possesses the fan which Gordon obtained for him; and he prizes it dearly.

A City Going Down Hill.

[Chicago Times.]

From recent surveys it has been ascertained that the entire city of Virginia, Nev., has moved over thirty inches to the east since the big fire of 1876. The Maynard block, in Golden Hill, is known to be gradually sliding down in the direction of Gold canyon, and has moved nearly two feet since its erection. This movement is so gradual that it does not affect in any manner the safety of the building, as the ground to the depth of nearly 100 feet to the bed rock is known to be continually sliding. It is a well-known fact among practical miners that the ground on which Virginia City is built is what is termed a slide, and that it is necessary to sink nearly 100 feet before finding the natural bed rock. These slides are caused by the constant crumbling of the rocks on the mountain sides. The debris thus accumulated through incalculable ages is constantly gravitating downward, and in a few hundred thousands of years what is known as the site of Virginia City will be nothing but barren bed rock.

Kerosene To Be Superseded.

[Exchange.]

The Organ fur Oelhandel gives an account of some experiments lately made in St. Petersburg with pyronaphtha, an illuminating oil which Bellstein, the celebrated Russian chemist, thinks will supersede kerosene. It is said to be wholly free from danger of fire, and burning kerosene is easily extinguished by it. Pyronaphtha itself can be readily put out by water. It burns with a bright light and gives off no smoke or vapor, while the fact that it is a residual product of the Baku distillation of petroleum makes it cost less than kerosene.

The Walking of Insects.

[Chicago Herald.]

As the result of his personal observations, M. Claret states that the walking of insects may be represented by three men in Indian file, the foremost and hindmost of whom keep step with each other, while the middle one walks in the alternate step. The walking of arachnids can be represented by four men in file, the even numbered ones walking in one step, while the odd numbered ones walk in the alternate step.

The Next Thing.

[Exchange.]

New Yorkers are writing to the newspapers giving the sizes of their wives' feet and bragging over their shape and daintiness. The next thing in order will be for the ladies to write to the newspapers and give them the size of their husbands' hats and the distance between their eyes and the top of their heads.

Listen to Your Wife.

The Manchester GUARDIAN, June 9th, 1882, says:

At one of the
"Windows"
Looking on the woodland ways! With clumps of rhododendrons and great masses of May blossom!!! There was an interesting group

It included one who had been a "Cotton spinner," but was now so

"Paralyzed!!!

That he could only bear to lie in a reclining position.

This refers to my case.

I was Attacked twelve years ago with "Locomotor Ataxy"

(A paralytic disease of nerve fibre rarely ever cured)

and was for several years barely able to get about.

And for the last Five years not able to attend to my business, although

Many things have been done for me

The last experiment being Nerve stretching.

Two years ago I was voted into the

Home for Incurables! Near Manchester, in May, 1882.

I am no "Advocate"; "For anything in the shape of patent" Medicines?

And made many objections to my dear wife's constant urging to try Hop Bitters, but finally to pacify her—

Consented!!

I had not quite finished the first bottle when I felt a change come over me. This was Saturday November 3d. On Sunday morning I felt so strong I said to my room companions, "I was sure I could

"Walk!

So started across the floor and back.

I hardly know how to contain myself. I was all over the house. I am gaining strength each day, and can walk quite a few without any "Stick!"

Or Support.

I am now at my own house, and hope soon to be able to earn my own living again. I have been a member of the Manchester

"Royal Exchange"

For nearly thirty years, and was most heartily congratulated on going into the room on Thursday last. Very gratefully yours,

The Daily Times.

PUBLISHED EVERY AFTERNOON EXCEPT SUNDAY.

Victoria, Thursday, June 25, 1885.

CITY AND PROVINCE

—The name of Miss Christie Lorimer, who was promoted to the high school, was misspelled in yesterday's issue.

—The contractors to-day broke ground for the new residence of Archbishop Seghers.

—Robert Hennessy was the only repentant drunk in the police court this morning. Fined $5 or one week.

—The local government are building a road through the Marble canyon in the Lillooet district.

—The bishop of New Westminster expects to leave about the 11 of July for a visit to Cariboo.

One hundred new lock boxes are being added to the city post office, New Westminster.

—The Holbrook Hotel, New Westminster, has been thoroughly overhauled and renovated and is now equal to the best.

—Salmon are reported as abundant in the Fraser, there being twenty and thirty taken daily to each boat.

—Several smart boys can find light and profitable employment selling the DAILY TIMES on the street, by applying at this office.

—Mr. T. Nicholson has disposed of his grocery business to Messrs. Muirhead & Carter and will embark in some other enterprise.

—The Landowne medal, presented for competition between the Nanaimo and New Westminster schools, has been won by Master James Galloway, of the Nanaimo school. This is the second time Nanaimo has carried off the prize.

—The Guardian says that the very transparent trick of giving sums out of the public money just before election time, is like rewarding a boy by giving him a top paid for out of his own savings.

—The people of this province, says the Guardian, are beginning to look with suspicion on the present federal government, the influence of the syndicate over it is very great.

—The people of Aldergrove, a new settlement on the Yale road, about 10 miles above Langley Prairie, are asking for a road from their settlement to the river. The distance from the river to Yale road is seven miles.

—A grand picnic is to be held at Matsqui on Dominion Day. Mr. James Orr, M. P. P., is to be present to air his views on the political question. It is not known whether Honest John will be there or not.

—The Olympian brought freight for: E W Wirth, Albion Iron Works, J A Campbell, J H Todd & Son, Marvin & T, T J Matlock, S L Kelly & Son, Thos Earle, H Saunders, S J Pitts, R C Janion, S Baker & Co.

—There is great commotion in school matters at Mount Lehman, Matsqui, going on just now. At the election one of the family compact got elected, a trustee, and immediately the other two trustees resigned. Another election is to take place on the 27th.

—Peterson, the photographer, in St. James Hall, Government street, announces that he is now taking cabinets at $5 per dozen for children. Now is your time to have your picture taken to be sent to your friends. Give him a call. See his advertisement.

—The river at Matsqui is the lowest it was ever known to be at this season of the year, consequently good prospects for hay on the prairie, in fact the crops of all kinds there are very heavy. All that is wanted is a little more sun, for they have had cloudy weather with a good deal of rain for over a month past.

—A pleasing incident occurred at the Central school yesterday, before the scholars were dismissed for the holidays. Miss E. A. Williams, principal of the girls' department, who is about to sever her connection with the school, was made the recipient of a handsome tea set and an address, by her pupils and fellow teachers.

—From a gentleman who arrived today from the interior, we learn that railroad work is being pushed rapidly and that Mr. Onderdonk will have his part of the work completed by the 10th of September next, at the furthest. His contract reaches to Griffin Lake, a point between Eagle Pass and the Columbia river. It is also said that all the rails east of Griffin Lake will be laid from the east end.

—One of the few leading stars in the country that travels in state, befitting a crowned head, is Janauschek. Her parlor car is a marvel of luxurious elegance and comfort, and contains, not only a splendid suite of apartments for the distinguished tragedienne, but also all the requirements for her manager, Mr. H. J. Sargeant, under whose able management she is having a season unsurpassed in its artistic and financial triumphs. Janauschek, will appear at Philharmonic hall Thursday and Friday evenings, June 25 and 26. Seats at Waitt's Book store.

The Repentant Colonist.

The Colonist of this morning for the first time in its history, presented itself to its readers on its bended knee and asks forgiveness. As THE TIMES feels a genuine pleasure in the promised reformation of even the most depraved it does not wish to keep the lash on the back of the Colonist, when that journal prays for mercy; but if occasion demands our doing so THE TIMES is further prepared to present to the public several other instances in which the behaviour of the Colonist has been most reprehensible. Judging from its contrite spirit this morning it will be equally ready to implore THE TIMES to over look its short comings.

The Presbytery of New Westminster.

At the meeting of the general assembly of the Presbyterian church in Canada, held in Montreal last week, the report submitted by the committee on rearrangement of Presbyteries recommended the formation of a Presbytery in British Columbia—on the petition of four ministers there—to be called the Presbytery of New Westminster, the same to have synodical powers; its first moderator to be Rev. J. S. McKay, and the first meeting to be in St. Andrew's church, New Westminster, on the third Monday of August, 1885. The report was adopted.

Auction Sale of Books.

Messrs. J. P. Davies & Co. will sell at their salesrooms, Wharf street, to-morrow morning; at 11 o'clock, a valuable collection of books, containing, according to catalogue, over 1500 volumes. The collection includes works on science and art, historical and biographical works, standard novels, the Pollard law library, and other miscellaneous literature. Secure your catalogue and attend the sale.

"The Ouaslasha Shore."

The steamer St. Paul, which arrived in San Francisco on the 23rd, reports that the ice about the Seal Islands was thicker than has been known for years. This news confirms the belief that the present season will be a hard one for Arctic whalers.

THE CENTRAL SCHOOL.

Closing Exercises in the Boys' Department.

The closing exercises in the boys department of the public school took place to-day. The several trustees and a number of citizens were present. The pupils were examined by the teachers in mental arithmetic, history and geography, and the promptness and correctness of their answers was indicative of careful and assiduous training. Several spelling contests were held and in one between the first and second divisions a boy in the latter, named Haynes, came off victorious. At the close of the exercises, the honor rolls were read out and prizes were awarded to the deserving pupils in the several divisions. We append the list:

Avoid by all means the use of calomel for bilious complaints. Ayer's Cathartic Pills compounded entirely of vegetable ingredients, have been tested for forty years, and are acknowledged to be the best remedy ever devised for torpidity of the liver, costiveness, and all derangements of the digestive apparatus.

Dissolution of Partnership.

Notice is hereby given that the partnership heretofore existing between C. D. Rand and R. Lipsett, as real estate brokers, has this day been dissolved by mutual consent. R. Lipsett will continue the business of real estate broker.
